CONTROL MEASURES Due to the nature of the equipment being used and its purpose, with numerous children of various sizes and ages, various control measures have been put in place to assist in the prevention of an accident or injury. **Steps to be taken to avoid an accident or incident leading to injury:**

1. Client will ensure there is a cornered off area for us to set up and also the pathway out will be clear to ensure that no members of the public come into contact with the equipment while it is being manoeuvred from the vehicle to the set up area or set up.
2. All electrical equipment will be PAT tested
3. All cables will be taped down, covered or routed outside of walkways/ pedestrian routes and checked regularly.
4. All equipment is to be checked before being taken to an event to ensure it is in good condition.
5. Only a trained operator is to operate Cork Shooting Gallery to reduce the risk of injury. If you are hiring this activity for your side stall.
6. All stalls must be inspected after installation to ensure they are secure and there is no risk of injury.
7. Ensure Manual Handling is kept to a minimum and lifting aids/ trolleys are used at all times.
8. All Ultimate Rodeo Bulls staff are to be briefed on the risk assessments for the event procedures.
9. Side stalls to be anchored down using either stakes or sandbags dependant on ground surface.
10. Various games that are being used in the side stall will be supervised by Ultimate Rodeo Bulls or your staff can be trained to supervise this item. All supervisors will maintain and control the use of the stall, including users playing correctly.
11. All side stalls are built with flame retardant PVC material which also absorbs most of the impact from certain games
12. The Side Stalls will be manned at all times and the operative will show guests how each stall works/runs to win the prizes. The operative will make sure the guests use the games safely in the contained area and do not use the Guns, Balls and Hoops outside of the relevant contained play area.

Residual Risk Rating: Likelihood 1 X Severity 3 = Total 3

MONITORING RESULTS: Ultimate Rodeo Bulls Director will ensure the above is adhered to at all times

REVIEW DATE: At regular intervals, not to exceed 12 months or when circumstances change.

RESIDUAL RISK RATING: LOW
